

# Great River Regional Trail

This factsheet summarizes trail-level data for Great River Regional Trail. Use estimates were derived using location-based services (LBS) data and represent the number miles traveled on trails by bicyclists and pedestrians.

This research project was funded with Legacy Partnership Research Funds from the State of Minnesota Parks and Trails Legacy Fund. LBS data was obtained from StreetLight Data, Inc. and was accessed in May 2023.

Great River is part of the Greater MN Regional Trail system (Greater MN District 4). Park boundaries were accessed via personal communication in July, 2021 and may have been edited to improve LBS data performance.

### Visitor home locations

Inferred visitor home locations are reported at the block group level. Darker colors indicate more visitors from a given block group. During 2021, approximately 97% of visitors to Great River lived inside of Minnesota while 3% of visitors lived outside of Minnesota.

### Visitor Demographics

Visitor demographics are inferred based on home locations and data from the 2020 US Census. The table summarizes inferred demographic attributes of visitors to Great River during 2021 (LBS data). 2020 US Census data for Greater Minnesota (the state minus the 7-county metro area) is provided for context. Please note that local and/or historical context is crucial when interpreting trail-level demographic data.
